GRO-SOD LAWN FOOD ORDER NOW!

THE OLD ORIGINAL
FORMULA — 10-6-4

One-half the nitrogen is Organic. No offensive odor. Promptly effective and lasting.

SIZE	WHOLESALE	RETAIL
100 lb. Bags —	5.25	7.50
50 lb. Bags —	2.95	4.30
25 lb. Bags —	1.70	2.60

Ton Lots or over Less 5%.

Terms: Net, F. O. B. our Warehouses
Freight Prepaid.

WHY . . .

is GRO-SOD better for lawns
than ordinary fertilizer?

The most important element in a lawn fertilizer is nitrogen. This is the 10 in the 10-6-4 formula. Grass being mowed continually needs this extra nitrogen to compensate for the fast leaf growth in domesticated grass. This formula has been developed after exhaustive scientific experiments. GRO-SOD provides the extra nitrogen called for by this scientific formula.

BUT — this nitrogen plant food must feed grass, not for two weeks, but for two months. Hence one-half the nitrogen in GRO-SOD is organic — the form which is absorbed by the soil slowly. The chemical portion of the nitrogen gives quick food stimulant to the lawn; the organic portion saves and distributes nutriment over a two-month period.
